Wedding Day Timeline

This timeline is designed with a traditional wedding day in mind – *If you are having a small intimate elopement styled wedding* – *This timeline is not likely to apply to you.*

This timeline is WITH a FIRST LOOK

Do we like first looks – Yes, we do, mainly because it makes the day go a little smoother by saving a bit of time. *With that said... Keep in mind you are not married at this time, and you won't have your wedding bands on for any of the photographs that do take place during this time.

We specialize in creating timelines like this, so if you need one for your wedding day, please let us know! We can set up a phone meeting and create something just like this together! Having been a part of hundreds of weddings over the past two decades we feel confident in our timeline building skills.
